CHAPTER 5 - FSS CLAIM & ATTACH. CORRECTIONS

CLAIM ADJUSTMENTS/CANCELS

In order to process any UB92 adjustment claim (TOB XX7) in the Remote FSS you must report an applicable 2 digit alpha-numeric condition code. The condition code fields are located on page 1 of the Remote FSS claim screen (form locators 24-30 on the UB92 claim form). An adjustment condition code is also reported when cancelling a claim (TOB XX8). FSS also requires a matching Adjustment Reason Code on page 3 of the claim screen.

Listed on the following pages are the valid adjustment condition codes which can be used when adjusting or cancelling a processed claim in Remote FSS. Following the list is a MATRIX showing allowed combinations of adjustment codes.

Other claim change reasons will frequently change the charges on the claim; however, reason code "D1" is not reported in addition to the single reason best describing the adjustment/cancel request.
